**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am very worried the FCC is going to limit the competition for internet service providers by taking away my provider's ability to use existing copper wires that reach my home. The previous service I had was ATT, which owns the underground wires to my home, but their rates kept increasing and the service got worse for my computer connection and phone service. I heard good things about Sonic and switched, and have been very satisfied. I would hate to be limited to ATT. Competition could make them better. Please don't change the rules now.

Thanks,
Tim Danesi
